### CELESTIAL HAPPENINGS

Hi Everyone,

There are some pretty exciting things happening currently with the planets that affect us in some of the most important aspects of our life.

Destiny's highly experienced resident astrologer Rani explains these comings and goings for us. Be inspired into action and consult with Rani if you wish to explore the effects on your life.

In addition to Rani's news on the eclipses I would like to remind you that from 15th May to June 27th, the planet Venus goes retrograde in the sky. (It appears to move backward). This is a time for evaluation of our relationships in every sector of our lives - love, romance, sex, friendships, work, children, partners etc. It is time to do a "cost benefit" of these relationships with regard to how they are assisting you with your journey.

This is not a time to take action but to evaluate. Action should be taken **after** Venus goes direct.

At Destiny we have many tools to assist you in some of the aspects in this preparation.

Books, oracle cards, CD's from topics of love and soul mates to the Kama Sutra.

Scented candles and essential oils to spice up your bedroom to Feng Shui items that tell you what and where to place them.

Our relationship counsellor Diana is offering a special deal for either single clients or couples. Call Destiny for more information and to consult with Diana.

For men, Diana can disseminate the philosophies of David Deida, Author of the Way of the Superior Man a superior book for men.

For parents, Kali is offering workshops on Kinesiology for Parents/Teachers as well as Reconnective Kids! Workshops for children aged 4-14. We also stock Children's books and CD's.

Space Clearing is a great Bush essence to use to clear your workspace of negative energies not to mention our vast choice of quality and unusual crystals.

## NOW TO RANI'S TAKE ON THE CELESTIAL HAPPENINGS...

May and June greet us with an extraordinary triple eclipse event!

The solar eclipse at 0 degrees Gemini on May 21st is followed by a lunar eclipse to the Sun on June 4th at 9:11:36pmAEST at 14 degrees of Sagittarius.

Venus makes her eclipse to the Sun at 15 degrees Gemini on June 5/6th.

Venus' eclipses only take place every 120 years, always in pairs and 8 years apart.

After his voyage to Tahiti to observe and time a Venus eclipse, Captain Cook 'stumbled upon' Terra Australis in 1769!

What might you discover on June 5/6th?

A new passion? A new relationship?

Perhaps a total acceptance and embracing of yourself and the realisation that you can only ever B U?

The above mentioned '8 year period' represents a kind of gateway through which Unity Consciousness has been empowering mass consciousness on this planet since December '04.

Gemini and Sagittarius, an air/fire axis, will inspire individual and collective ideas, ideals and new visions!

Apart from the triple eclipses, June will be the major battle ground on which outmoded, self-serving and destructive structures will be thrown the gauntlet by a fear-less and more enlightened wave of consciousness, as that is when we experience the squaring of Uranus and Pluto! Can you hear their rumblings getting louder?

Uranus in Aries, fired up by the triple eclipses, will spark sudden awakening in the collective, whilst Neptune in Pisces encourages the collective river to flow towards healing, LOVE and, ultimately, spiritual enlightenment.
